

medPhoton is one of the most innovative companies in Salzburg. Our medical imaging solutions and products stand for the highest quality and are available at medical facilities worldwide. We develop cutting edge medical devices and corresponding software, on our Salzburg premises.

At the moment, we are looking for a

## APPLICATION SPECIALIST / TEST ENGINEER - RADIOLOGICAL DEVICES (M/F/D)

TO BE A FULLTIME MEMBER OF OUR TEAM

**As a professional information communicator, you will be responsible for the following tasks:**

- Creation and execution of test plans & reports
- Reporting and tracking of identified software issues
- Assisting in usability design in software
- Managing customer feedback and expectation
- Handling of customer complaints, supervision of solution finding
- User-level usability testing and application training to customers as well as employees
- Development & documentation of training material with main focus on clinical workflows as well as device calibrations
- Support and manage customer projects, from concept phases to implementation of new solutions
- Collaboration within the company to develop and improve high technological medical devices for radiotherapy.

### YOUR ATTRIBUTES:

- Ideally background in usage or handling of medical devices
- Experience in (SW-) Testing as a plus but not required
- University degree or equal practical experience
- Native or professional level of English, ideally second/third language competences (German, Spanish, French, Italian...)
- Ideally some experience in Application within the medical technology industry.
- A passion for resourceful and creative problem-solving.
- Ability to work independently but also a motivated and enthusiastic team player
- Great people skills, and a proven track record of building relationships.

### WHAT WE OFFER YOU!

- **A motivating work atmosphere in a young, dynamic team**
- **An exciting and varied scope of assignments**
- **The opportunity to grow with us, be directly involved and participate in our company's success**
- **A secure, permanent full-time contract**
- **Generous social benefits within our culturally diverse enterprise**
- **Freshly-cooked meals and healthy snacks provided daily**
- **Good public transport connections and parking facilities (for both, four and two wheels) available**
- **As a family-friendly company, we are happy to support you in your daily obligations (childcare, etc.) by means of flexible working hours.**

The actual salary will be negotiated and decided based upon the individual's demonstrated qualifications, skills, and experience. According to the Austrian "Kollektivvertrag für Angestellte im metallverarbeitenden Gewerbe", the salary classification for this position is committed with "Verwendungsgruppe 3".
