YOUR ATTRIBUTES:

- Degrees in Computer Science, Maths or Sciences. (PhD / Masters /Bachelors welcome!)
- C++ knowledge (or knowledge in Java, Python, C#...)
- Experience in (SW-) Testing as a plus but not required
- Experience in Qt, VTK, ITK, CUDA, DCMTK is beneficial but not essential
- Good communication and problem-solving skills

WHAT WE OFFER YOU!

- **A motivating work atmosphere in a young, dynamic team**
- **An exciting and varied scope of assignments customized for your skills and interests (e.g. backend services, medical format networking, databases, robotic kinematics, image processing, geometry / visualization, UI/UX...)**
- **The opportunity to grow with us, be directly involved and participate in our company's success**
- **A secure, permanent full-time contract**
- **Generous social benefits within our culturally diverse enterprise – consisting of 19 nations!**
- **Freshly-cooked meals and healthy snacks provided daily**
- **Good public transport connections and parking facilities (for both, four and two wheels) available**
- **As a family-friendly company, we are happy to support you in your daily obligations (childcare, etc.) by means of flexible working hours.**

The actual salary will be negotiated and decided based upon the individual's demonstrated qualifications, skills, and experience. According to the Austrian "Kollektivvertrag für Angestellte im metallverarbeitenden Gewerbe", the salary classification for this position is committed with "Verwendungsgruppe 3".

If this offer sounds too good to be true and a great fit for your next career goals, let us know and send us your inspiring application including a letter of motivation, curriculum vitae & references: **jobs@medphoton.at**
